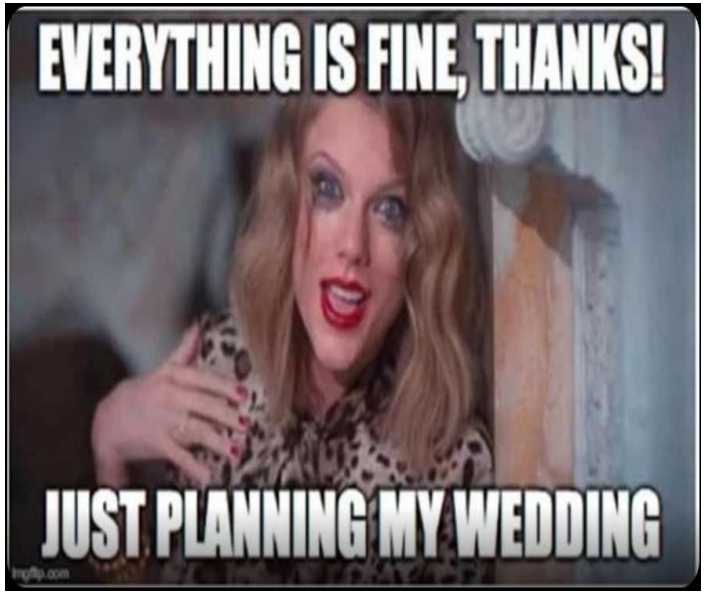
TROLL ME

When people ask me how my wedding planning is going
@theplunge

WHEN YOU'VE BEEN WEDDING PLANNING FOR SIX MONTHS BUT REALIZE ITS ONLY BEEN TWO WEEKS
I guess this is my life now...

The happiest moment of my wedding was realizing that planning my wedding was over.
someecards



EVERYTHING IS FINE, THANKS!
JUST PLANNING MY WEDDING

WHEN I FIRST GOT ENGAGED
THINKING OF MY WEDDING NOW
Help me, I'm poor.

Wedding planning shouldn't feel like a second job.

1

Time Consuming

Couples spend weeks browsing vendors, only to find they're over budget or wrong for their needs.

2

Decision Overload

Hundreds of disconnected decisions pile up. Inspiration platforms make it worse — everything looks good, nothing filters by budget.

3

Pricing is Opaque

88% of vendors hide real pricing. 52% of couples exceed their budget. Platforms are vendor marketplaces with planning bolted on.

4

Fragmented Tools

Planning is scattered across Pinterest, spreadsheets, vendor sites, and email. No tool shows you what your wedding will actually look like.

What couples actually want: real prices, a shortlist they can trust, help making decisions, and one place to plan it all.

See the full picture first — then choose your pieces.

Today, couples gather puzzle pieces from dozens of places and hope they fit. Rendezvous shows you the completed picture first — then helps you pick each piece with confidence.

1 Visualize

See Your Wedding First

An AI-generated ceremony scene built from your questionnaire — with annotated budget callouts on every element. The completed puzzle, before you start.

→

2 Understand

Specific Budget Breakdown

Not $20k–$50k ranges. Real allocations: "Venue $15k · Florals $4k · Photography $3k" — calibrated to your city and priorities.

→

3 Discover

Curated Vendor Shortlist

3 matched vendors per category — filtered by budget, capacity, cultural fit, and a transparent match score. Each piece, hand-picked to fit your picture.

→

4 Plan

All-in-One Planning Hub

Guest list management, planning checklist, digital invitations, and seating planner — everything in one place so nothing falls through the cracks.

Your personalized wedding shortlist in under 5 minutes — instead of 5 weekends.

Product: picture and plan.

Target: tech-comfortable couples who want a personalized shortlist fast — not a directory to browse.

01

Answer the Questionnaire

A 4-step intake — date, city, guests, budget, style, and cultural needs. Feels like a conversation, not a form.

02

See Your Vision Board ★

An AI-generated ceremony image — your venue type, style, palette — with budget callout boxes on every element. Interactive and adjustable.

03

Discover & Compare Vendors

3 curated vendors per category, matched against your vision board budget. Compare side-by-side with transparent scoring.

04

Plan from One Hub

Vision board with shortlist, budget tracker, and checklist — all connected. Vendor choices reflect back to your vision board.

A massive, underserved market.

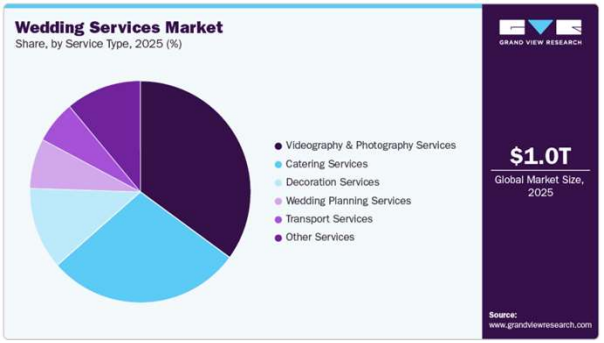
$84B
TAM — Global Wedding Planning Services

36% of couples globally now use AI-based planning tools

$30.24B
SAM — AI-Enabled Planning (36% of TAM)

6.9% NA weddings as share of global weddings per year

$2.1B
SOM — North America



42M
Global weddings per year

2.9M
North American weddings per year

4M+
The Knot active couples per year

Sources in appendix

Why now?

1

Market Recovery

Post-pandemic boom and shift toward Gen Z trends: more personalized, sustainable, and smaller micro-weddings.

2

Couples are Frustrated

Reddit r/weddingplanning has 1M+ members — couples actively fleeing The Knot due to fake reviews and vendor-paid results.

3

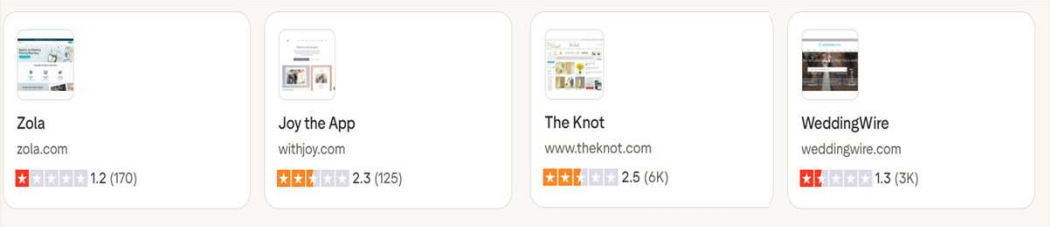
AI is Ready

LLMs deliver genuinely useful planning guidance. The Knot launched ChatGPT integration (Feb 2026) — validating the category.

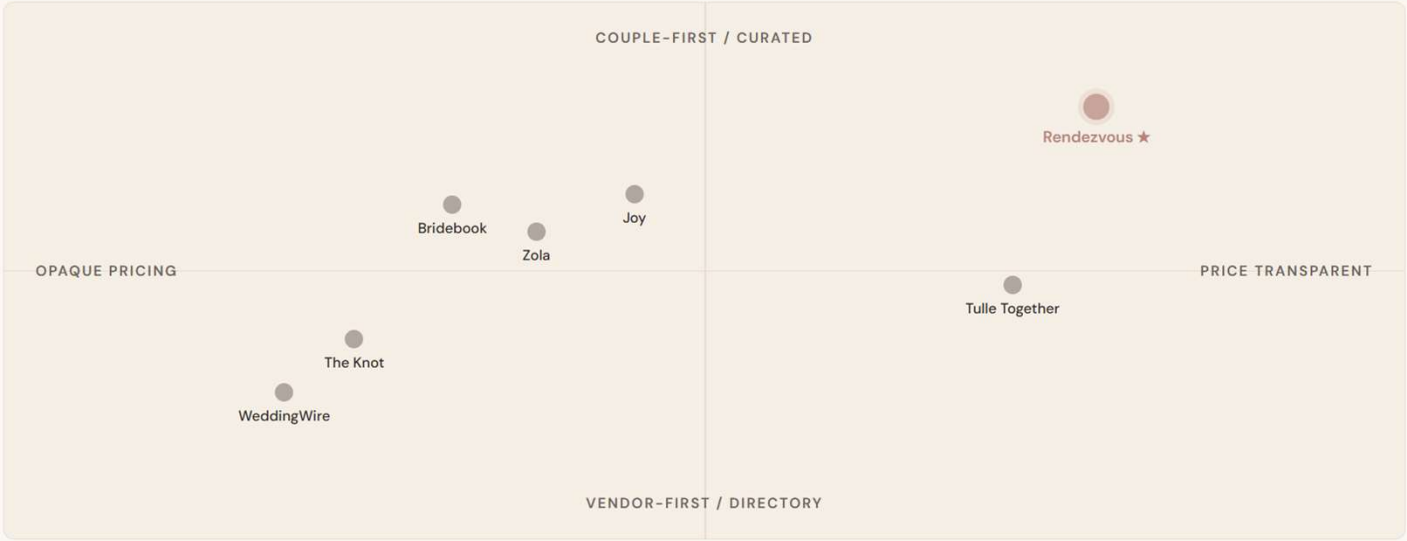
4

Poor Existing Solutions

Existing solutions have poor reviews, especially in the Canadian market. Joy (2.3/5), WeddingWire (1.3/5), The Knot (2.5/5).



Why Rendezvous wins.



Incumbents are vendor marketplaces with planning tools bolted on.
Rendezvous is a couple-first platform with accurate personalized recommendations — and no hidden advertising.

Business model.

Couples always see the best-fit vendors first — never pay-to-rank. Trust is the product.

Phase 1
Launch – 3 months

Couples — Free Tier

FREE

- Intake quiz + AI-generated shortlist
- 3 vision board generations per day
- Full vendor directory access
- Incentive: Couples who share real vendor quotes they've received unlock bonus regenerations - helping us build the most accurate pricing database in the market

Phase 2
3–6 months

Couples — Pay-Per-Use

~$1.99/regen

- Additional regenerations on demand
- Bulk packs: $5 for 3 regens
- Premium: $69 one-time unlock for unlimited regens, PDF export, and comparison view

Phase 3
6–12 months

Vendor Referral

$50–200/lead

- Vendors pay per introduction - only triggered when a matched couple explicitly requests contact
- Every lead is pre-qualified: the couple completed intake, matched by budget and style, and chose to reach out
- Promoted vendors can pay for visibility but always appear below organic matches, clearly labeled as sponsored

Phase 4
12+ months

Planner White-Label (B2B)

$200–500/mo

- Wedding planners embed Rendezvous intake + matching on their own sites
- Branded experience under the planner's name
- Recurring SaaS revenue with low customer acquisition cost

The team.

Two founders who just planned two 150-guest weddings — and decided no couple should have to do it without better tools.

Maggie Yang

CEO & Product

Former AI Product Manager at Huawei — owned search and analytics platforms across international markets, driving +47% DAU and +107% CTR. MBA from UBC Sauder, Master's from Columbia. Recently planned two 150-guest weddings and lived every pain point this product solves.

Yelin Fan

Developer

Data scientist and engineer with expertise in machine learning, analytics, and full-stack development. Master of Business Analytics from UBC Sauder, B.Sc. from McGill. 4+ years as Senior Analyst at PHSA, former Senior Business Analyst at TELUS Health.

Kai Li

Business Dev & Developer

Business analyst with a background in event management and large-scale operations. Master of Business Analytics from UBC Sauder, Master's from Columbia. Strong in Python, BI, and rapid prototyping. Co-planned two 150-guest weddings.

When you get engaged, open Rendezvous first.

We're building the default starting point for wedding planning — putting couples first from the very first search.

5 min
to a personalized shortlist

Appendix: Market Sources

Market	Weddings/Year	Source
Global total	~42 million	Condor Ferries 2025
India	~10 million	Wikipedia — Weddings in India
China	~7.68 million	CEIC — China NBS
United States	~2.0–2.1 million	The Wedding Report 2025
Canada	~150,000–160,000	Statistics Canada
United Kingdom	~245,000	ONS via Online MFT Programs
Brazil	~1 million+	The Knot Worldwide 2025
Mexico	~600,000+	The Knot Worldwide 2025
Destination weddings	~350,000	Condor Ferries 2025

Go-to-market: Canada first.

Newly engaged couples search "wedding planning where to start" within 48 hours. We capture that moment.

Pre-Launch

- Onboard 50 Vancouver vendors with verified pricing across 4 categories (venues, caterers, photographers, planners)

Month 1–2
Engagement Blitz

- Social media ads targeting newly engaged couples
- Reddit community presence
- One bridal expo with live Vision Board demo

Month 2–4
Flywheel

- Vision Board sharing drives organic referrals
- Co-marketing partnerships with wedding planners
- TikTok reaction content

Month 3–6
First Revenue

- Premium unlock ($69) for power users who want unlimited regenerations and PDF exports
- Vendor referral program launches — vendors pay per qualified introduction

Channel priority

SEO content | Meta paid ads | Reddit | Pinterest | Planner referrals | Vision Board sharing

Year one milestones

1,000
couples onboarded by month 12

100
vendors with transparent pricing

$25K
MRR by end of Year 1

Long-term roadmap

Year 1 — Major Canadian cities
Year 2 — North American expansion
Ongoing — New vendor categories (dress, gifts, salons, cakes)

Known constraints. Clear solutions.

CONSTRAINT

Vendor data accuracy

Requires deep, ongoing research

SOLUTION

- Crowdsource from couples — free regenerations for submitting vendor quotes
- Purchase data from platforms like Tulle Together
- Direct vendor outreach for pricing verification

CONSTRAINT

Budget-aware image generation

Technical complexity

SOLUTION

- Translate budget parameters into structured prompts that AI models understand
- Continuous A/B testing to optimize prompt quality and visual accuracy

CONSTRAINT

Monetization timing

Must build trust before charging

SOLUTION

- Free usage first to build audience and bargaining power with vendors
- Vendors pay referral fees because Rendezvous delivers high-intent, pre-qualified couples
